INTRO

Sebastian Alvarado became a Full Stack Developer in a coding bootcamp at the University of Texas at Austin. He is an undergrad at UT Austin majoring in Computational Biology. Sebastian is constantly learning new things and is currently diving into cybersecurity. Through diligence and hard work, he was able to prove himself to the Directors of Seminaut Inc. and joined the board. Now, he is the Guild Development Director responsible for managing the entire development department on a day-to-day basis.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML/CSS, SQL, GraphQL

Software & Frameworks: Windows, Linux, Virtual Machines, Node.js, Express, React.js, SQLAlchemy, Flask, Bootstrap, Material UI, Git, Visual Studio Code, Sequelize, GitHub, GitLab

Databases: MySQL, MongoDB

Cloud: Firebase

PROJECTS

Netflix Clone   **Live URL: https://sebastians-netflix-clone.herokuapp.com**
- A clone of Netflix's online streaming service
- Uses the entire MERN stack
- There is an admin dashboard for CRUD operations of the site

Amazon Clone   **Live URL: https://clone-39f35.firebaseapp.com**
- A clone of amazon's online store
- Uses firebase, stripe, and React.js

Instagram Clone   **Live URL: https://instagram-clone-8a613.firebaseapp.com**
- A clone of Instagram's social media site
- Uses firebase and React.js
